## PRESS RELEASE

### Second Positive Case of COVID-19 in Iroquois County Confirmed

The Iroquois County Public Health Department has confirmed the second positive case of novel coronavirus disease (COVID-19) in an Iroquois County resident on March 27, 2020.

This individual was tested March 24<sup>th</sup> by a medical provider. Laboratory confirmed results were received today. The individual is a man in his 40's located in Iroquois County. The individual is at home, doing well, and cooperating with public health officials. He will remain in isolation per Illinois Department of Public Health guidance.

At the time of this press release Iroquois County has two individuals with laboratory confirmed cases:

- Case 1: Male in his 50's- Isolated at home
- Case 2: Male in his 40's- Isolated at home

At this time we are not providing any additional details on these individuals.

Our Communicable Disease nurses are working tirelessly to complete investigations, conduct contact tracing and notify anyone determined to be at increased risk of exposure. The situation is fluid. Guidance and recommendations regarding patients under investigation may evolve as more is learned.

**It is important to remember that even though there have been confirmed cases, this is not cause for panic.**

Please continue to practice social distancing and other safety measures to limit COVID-19 exposure. **Most importantly stay home if you are sick!** If you have a respiratory illness, stay home for 7 days after your symptoms started and for 3 days after your fever has stopped without the use of fever reducing medications, and your cough or sore throat symptoms have improved (whichever is longer). Avoid the emergency department and other places you seek healthcare if you are not severely ill, unless your doctor advises otherwise. Stay home and keep healthcare access available for others with more severe illness.

This is a rapidly evolving situation and the Iroquois County Public Health Department will provide updated information and guidance as it becomes available on our Iroquois County Public Health Department Facebook page and website at <http://www.co.iroquois.il.us/covid-19-corona-virus/>

For general questions about COVID-19 (Coronavirus) call the Illinois Coronavirus Disease (COVID-19) Hotline at **1(800) 889-3931** or, send an email to: **DPH.SICK@ILLINOIS.GOV** anytime, 24 hours a day, seven days a week.
