INDEPENDENT AUDITORS' REPORT

Iroquois County Board Iroquois County, Illinois Watseka, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the businesstype activities, each major fund, and the aggregate remaining fund information of Iroquois County, Illinois (the County), as of and for the year ended November 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Iroquois County, Illinois as of November 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis and certain pension information that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining financial statements and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Iroquois County Board Iroquois County, Illinois

The statistical section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 12, 2020, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in the County's internal control over financial reporting and compliance.

IROQUOIS COUNTY, ILLINOIS RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE NET POSITION OF GOVERNMENTAL ACTIVITIES NOVEMBER 30, 2019

Fund Balances – Total Governmental Funds	\$ 15,963,986
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources, therefore, are not reported in the funds.	46,857,254
Certain revenues are reported as deferred inflows and are not reported in the fund financial statement because they are not current financial resources, but they are reported in the statement of net position on the full accrual basis.	46,819
Net deferred inflows and outflows of resources related to pensions are applicable to future periods; therefore, they are not reported in the funds.	2,844,545
Internal service fund is used by management to charge the costs of health insurance to individual funds. The assets and liabilities of the internal service fund is included in governmental activities in the statement of net position.	187,903
Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds. These liabilities consist of:	
Compensated Absences Payable\$ (127,132)Net Pension Liability(1,759,992)Capital Lease Obligation(41,513)Loan Payable(614,939)Total Long-Term Liabilities(614,939)	(2 542 576)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Iroquois County, Illinois (the County) was incorporated in 1883 and operates under a County Board form of government. Revenues are substantially generated as a result of taxes assessed and allocated to the County (examples are property, sales, income, and motor fuel taxes), charges for services performed and governmental grants. Revenues are therefore dependent on the economy within the territorial boundaries of the County and nearby surrounding area and the appropriations of entitlements at the state and federal government level. Taxable industry within the area is primarily manufacturing and retail. The surrounding area has a substantial agricultural base.

The following is a summary of the more significant accounting policies of the County.

Principles Used to Determine the Scope of the Reporting Entity

Iroquois County is a municipal corporation governed by an elected board. As required by accounting principles generally accepted in the United States of America, these financial statements present Iroquois County, Illinois (the primary government) and its component units. Component units are legally separate organizations for which the elected officials of the County are financially accountable. Organizations for which the County is accountable because it appoints a majority of the voting board, but is not financially accountable for its operations, are related organizations. Component units and related organizations are described in Note 2.

The County Board Chairman and County Board make appointments of the governing boards of a number of fire protection, drainage, public water, and sanitary districts. Even though the County Board may appoint a majority of the members of the respective districts, the members do not serve at the discretion of the County Board, that is, they can be removed only for cause. There are no indications that the County Board can impose its will over these districts and, therefore, has no financial accountability. These units are not considered component units of the County.

Financial information of component units is blended with that of Iroquois County, Illinois, where among other criteria, the nature of services rendered by the component unit is almost exclusively for the benefit of the County, or where the governing body of the component unit is substantially the same as that of the County. These are discussed in Note 2. Component unit financial information that is not blended with that of the County is discretely reported. The County does not have any discretely presented component units.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-Wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied for budgetary purposes. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collectible within 180 days of the end of the current fiscal period (60 days for property taxes). Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The accounts of the County are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fund balance/net position, revenues, and expenditures/expenses.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

Governmental funds are those through which governmental functions of the County are financed. The acquisition, use, and balances of the County's expendable resources and the related liabilities are accounted for through governmental funds. The County reports the following major governmental funds:

General Fund – The General Fund is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds:

County Motor Fuel Tax Fund – This fund is used to collect and disburse state funds for County road projects.

IMRF Fund – This fund is used to collect and disburse contributions to IMRF.

County Highway Fund – This fund is used to collect and disburse funds for County engineering projects.

Iroquois County Public Health Department Fund – This fund accounts for the operations of the Iroquois County Health Department.

Proprietary funds are used to account for those County activities that are similar to those often found in the private sector. The measurement focus is upon determination of net income, financial position, and changes in financial position.

The County has no major proprietary funds.

In addition to the General Fund mentioned above, the County uses the following fund types:

Governmental Fund Types:

Special Revenue Funds – Special Revenue Funds are used to account for the proceeds of specific revenue sources requiring separate accounting because of legal or regulatory provisions or administrative action.

Capital Projects Funds – The Capital Projects Funds are used to account for the County's purchase or construction of major capital facilities which are not financed by other funds.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

<u>Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)</u> *Proprietary Fund Types:*

Enterprise Funds – The Enterprise Funds operations are financed similar to a private business enterprise; the intent is that the cost of the service is financed by user charges, and the activities be measured on a net income basis.

Internal Service Fund – The Internal Service Fund is used to account for the financing of goods or services (health insurance) provided by one department to other departments or agencies of the government, on a cost-reimbursement basis.

Fiduciary Fund Types:

Agency Funds – These funds are used to account for assets held in an agency capacity for others. The reporting is similar to proprietary funds. These funds are not reflected in the government-wide financial statements since they are not available to support County programs.

Private Purpose Trust Fund – This fund reports trust arrangements under which principal and income benefit other governments. This fund accounts for funds collected for the improvement of township roads within the County. This fund is not reported in the government-wide statement since they are not available to support County programs.

As a general rule, the effect of interfund activity has been eliminated from the governmentwide financial statements.

Budget and Appropriations

The County adopts an annual budget and appropriation ordinance in accordance with Illinois Compiled Statutes 55 ILCS 5/6. The budget covers the fiscal year ending November 30, and is available for public inspection at least 15 days prior to final adoption. All appropriations lapse with the close of the fiscal year. The budget document is prepared for all budgetary funds and is adopted on a basis consistent with accounting principles generally accepted in the United States of America using the same basis of accounting as described above.

Once the County budget has been adopted, no further appropriations shall be made during the year, except in the event of an immediate emergency at which time the County Board, by a two-thirds vote, makes appropriations in excess of those authorized in the budget. The legal level of control, the level at which expenditures may not exceed appropriations, is at the fund level.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents are comprised of cash on hand, demand deposits, money market funds, and short-term investments with a maturity of three months or less at date of purchase.

The County maintains pooled cash accounts for different fund groups which are used to account for all cash transactions of that group. Monthly interest income of the pool is distributed to the individual funds based on their cash balances in the pool during the period.

Investments

Investments consist of nonnegotiable certificates of deposit with maturities of one to five years. These investments are stated at cost which approximates fair value.

Receivables

Taxes receivable are recorded between 99-100% of the extension amounts. Property tax receivables are recorded net of the allowance for uncollectible amounts. Other receivables are recorded net of any estimated allowance for uncollectibles.

Loans receivable in governmental funds consist of development assistance loans that are scheduled to be collected over a number of years.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated acquisition value at the date of donation. General infrastructure assets acquired prior to July 1, 2001, consist of the road network assets that were acquired or that received substantial improvements subsequent to July 1, 1980, and are reported at estimated historical cost using deflated replacement cost. The County's other major infrastructure network, bridges, were added at December 1, 2005, and are reported at an estimated historical cost using the deflated replacement cost. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. The County uses a \$10,000 threshold for capitalizing assets. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Transportation Network	35 to 45 Years
Buildings and Improvements	25 to 95 Years
Equipment	5 to 25 Years
Vehicles	3 to 12 Years

Impairment of Long-Lived Assets

In accordance with government accounting standards, "Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries," management evaluates prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. A capital asset is generally considered impaired if both (a) the decline in service utility of the capital asset is large in magnitude and (b) the event or change in circumstance is outside the normal life cycle of the capital asset. No impairment losses were recognized in the year ended November 30, 2019.

Compensated Absences

County policy states that an employee must use each year's vacation days by their anniversary date. Any unused vacation (including personal days) is paid out upon termination. These are accrued as a liability in the government-wide statements. Sick days may be accumulated to a total of 60 days per employee with no amount payable upon separation from service and are therefore not accrued as a liability in the government-wide statements. Additionally, if employees have earned 30 days of sick leave, they may elect annually (November 1 of each year) to have excesses over 30 days paid to them at half-pay. This payout, when elected, occurs in November of each year.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense/income, information about the fiduciary net position of the Illinois Municipal Retirement Fund (IMRF) and additions to/deductions from IMRF's fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows of Resources

The County reports decreases in net position that relate to future periods as deferred outflows of resources in a separate section of its statement of net position. The County has one type of item which occurs related to its IMRF pension. The County has deferred outflows related to pension expense to be recognized in future periods and for pension contributions to the pension plan for the period January 1, 2019 through November 30, 2019 (subsequent to the measurement date).

Deferred Inflows of Resources

The County reports a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net position that applies to a future period. The County will not recognize the related revenue until a future event occurs. The County has two types of deferred inflows. One occurs because property tax receivables are recorded in the current year, but the revenue will be recorded in the subsequent year, as it is meant to finance the next fiscal year. The other relates to the net pension liability and income that will be recognized in future periods.

Loan Payable

In the government-wide financial statements, loans payable are reported as liabilities in the statement of net position.

In the fund financial statements, governmental fund types recognize the face amount of debt issued as other financing sources. Payments on loans payable are reported as payments on long-term debt under other financing uses.

<u>Equity</u>

Fund Balance

Fund balance is categorized based on the nature and extent of the constraints placed on the fund balance. The following classifications describe the relative strength of the spending constraints:

Nonspendable – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Equity (Continued)

Fund Balance (Continued)

Restricted – This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Committed – This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board. These amounts cannot be used for any other purpose unless the board removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed.

Assigned – This classification includes amounts that are constrained by the County's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board or through the Board delegating this responsibility to the County Board Chair or Treasurer or other official.

Unassigned – This classification includes the residual fund balance for the General Fund and includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

The County would typically use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds. For the government-wide and the proprietary fund statements, restricted resources will be depleted prior to the use of unrestricted resources.

Net Position

Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net position invested in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net positions are reported as restricted when there are limitations imposed on their use through enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. For the government-wide and the proprietary fund statements, restricted resources will be depleted prior to the use of unrestricted resources.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property Taxes

Property taxes become a lien on the property on January 1. These are recorded as a receivable at that point in time. The County levies property taxes annually in November (required on or before the last Tuesday in December) based on the assessed valuation determined in April of the same year. Property tax payments are due in two equal installments the following calendar year. The first is generally due June 1, and the second is generally due on September 1 with distributions to the County and other districts shortly thereafter. Taxes receivable at November 30 that are intended to finance the subsequent fiscal year are appropriately recorded as deferred inflows.

NOTE 2 INDIVIDUAL COMPONENT UNITS AND RELATED ORGANIZATION DISCLOSURES

Organizations qualifying as component units or related organizations as defined in Note 1 and their treatment are as follows:

Component Units

The Iroquois County Emergency Service Board is created by the County Board which also defines its powers and duties. This board oversees the implementation and operations of the emergency telephone system. The operations are accounted for in the 911 Emergency Service Board Proprietary Fund.

Related Organizations

The Cooperative Extension Services of the College of Agriculture at the University of Illinois operate in counties where extension councils have been established to disseminate information on subjects related to agriculture and home economics and other University programs. Oversight is provided by extension councils which derive their duties and powers from the Board of Trustees of the University of Illinois. Extension service programs and related local funding are coordinated by an extension board numbering at least seven, comprised of four members from the Extension Council and three from the County Board. The County extends taxes to finance operations of the Extension Service. The County is not financially responsible for any part of the Extension Services' operations except as it may choose to be. This organization is not included in the financial statements of the County. However, the County maintains an agency fund where property taxes are deposited and then disbursed to the Cooperative.

The Veterans Assistance Commission is a central assistance committee composed of one delegate from each County post to oversee assistance to military veterans and their families. The oversight is shared by the Chairman of the County Board or his designee. Under Illinois law, the County is to provide office space, phone, and supplies for the Commission and payment of assistance claims. Because of its oversight powers and the economic burden this requirement places on the County, it not being a separate legal entity, and the degree to which it is intertwined with the County, its transactions are accounted for in the Veterans Assistance Fund which is shown with other nonmajor governmental funds.

NOTE 2 INDIVIDUAL COMPONENT UNITS AND RELATED ORGANIZATION DISCLOSURES (CONTINUED)

Related Organizations (Continued)

The Iroquois County Joint Dispatch Committee is created by a joint agreement between the Emergency Service Board, the City of Watseka, and the County Board. The Committee oversees the operations of a communications system to dispatch and communicate regarding the usual customary functions of local government involving police, fire, EMS and other emergency functions. Because it is not a separate legal entity and the degree to which it is intertwined with the County, the operations are accounted for in the Joint Dispatch Fund which is shown with other County nonmajor governmental funds.

NOTE 3 CASH AND INVESTMENTS

The County maintains commingled accounts for several funds for operating activity, with accounting records being maintained to show the portion of the common account balance attributable to each participating fund. Separate operating and investment accounts are also maintained for certain funds independently. All accounts are the direct responsibility of the County Treasurer. The carrying amount of the County's bank deposits, including certificates of deposits, was \$27,794,808, and the bank balances totaled \$28,029,944. Included in the carrying amount of the County's bank deposits and the bank balances are nonnegotiable certificates of deposits totaling \$5,126,156.

Statement of Net Position Total Cash and Cash Equivalents	\$ 15,733,072
Statement of Net Position Total Investments	1,038,786
Statement of Fiduciary Net Position Total Cash	6,935,580
Statement of Fiduciary Net Position Total Investments	 4,087,370
Total Carrying Amount of Bank Deposits	\$ 27,794,808

Custodial Credit Risk – the risk that a government will not be able to cover deposits if the depository financial institution fails or will not be able to recover collateral securities that are in the possession of an outside party. It shall be the discretion of the Iroquois County Treasurer to determine whether or not collateral will be required of financial institutions receiving funds from the Iroquois County Treasurer. At all times, the Iroquois County Treasurer will require that deposits in excess of 35% of the capital and surplus of a financial institution will be collateralized. The Iroquois County Treasurer may request collateral for any part of deposits in financial institutions when the Iroquois County Treasurer determines it to be in the best interest of safeguarding the funds on deposit. When collateral is required, 110% of the deposit will be required and evidenced by an approved written agreement. At November 30, 2019, there was \$190,946 that was not fully insured or collateralized.

NOTE 4 INTERFUND ACTIVITY

Interfund receivables and payables (due to/due from other funds) for the year ended November 30, 2019 consisted of the following:

	-	nterfund eceivable	-	nterfund Payable
General Fund	\$	439,201	\$	-
Nonmajor Governmental Funds:				
GIS Fund		-		25,372
Joint Dispatch Fund		-		214,405
Historical Documents Fund		-		13,488
Capital Projects Fund				185,936
Total	\$	439,201	\$	439,201

Interfund transfers for the year ended November 30, 2019 consisted of the following:

Transfers to General Fund – Major Governmental Fund from:		
County Highway – Major Governmental Fund Iroquois County Public Health Department - Major	\$	10,000
Governmental Fund		20,000
Nonmajor Governmental Funds		88,800
Nonmajor Enterprise Funds		100,000
Total	\$	218,800
Transfers to IMRF Fund – Major Governmental Fund from:		
Nonmajor Governmental Funds	\$	24,580
Nonmajor Enterprises Funds		5,219
Total	\$	29,799
Transfers to County Highway – Major Governmental Fund from:		
County Motor Fuel Tax – Major Governmental Fund	\$	10,065
Transfers to Nonmajor Governmental Funds from:		
General Fund – Major Governmental Fund	\$	158,910
Iroquois County Public Health Department - Major	Ψ	100,910
Governmental Fund		16,610
Nonmajor Governmental Funds		51,279
Nonmajor Enterprise Funds		229,106
Total	\$	455,905
	Ψ	-00,000

Transfers are generally used to (1) move revenues from the fund collecting them to the fund that statute or budget reflects to expend them and (2) use unrestricted revenues collected to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 5 LOAN RECEIVABLE

In accordance with its agreement with the Illinois Department of Commerce and Community Affairs Community Development Assistance Program (CDAP), the County has received funding to issue community development loans in prior years. All monies in this fund (Revolving Loan Fund) are committed for development projects. Loans receivable from the previous CDAP program are receivables of this fund.

Changes in the loan receivable for the fiscal year are summarized as follows:

	Be	eginning				Ending
	E	Balance	 Additions	De	ductions	 Balance
Katherine Blunk	\$	57,370	\$ -	\$	5,500	\$ 51,870
T&D Metal Products, LLC		-	 300,000		10,115	 289,885
	\$	57,370	\$ 300,000	\$	15,615	\$ 341,755

The description of the loan and the annual expected proceeds as of November 30, 2019, is as follows:

	Katherine To		T&D			
<u>Year Ending November 30,</u>		Blunk	Metal, LLC		Total

NOTE 6 CAPITAL ASSETS

Capital asset activity for the year ending November 30, 2019 was as follows:

Primary Government: Governmental Activities	Beginning Balance	Additions	Deletions	Ending Balance
Transportation Network	\$ 103,529,743	\$ -	\$ -	\$ 103,529,743
Buildings and Improvements	8,127,086	433,100	-	8,560,186
Equipment	1,699,820	215,494	-	1,915,314
Vehicles	1,340,248	345,435	(117,822)	1,567,861
Capital Assets Depreciated	114,696,897	994,029	 (117,822)	115,573,104
Less: Accumulated Depreciation	(66,327,069)	 (3,115,157)	 117,822	 (69,324,404)
Total Assets Being Depreciated, Net	 48,369,828	 (2,121,128)	 -	 46,248,700
Construction in Progress	188,707	411,247	-	599,954
Land	 8,600	 -	 -	 8,600
Total, Net	\$ 48,567,135	\$ (1,709,881)	\$ -	\$ 46,857,254
Business-Type Activities:	Beginning			Ending
911 Emergency Service Board	 Balance	 Additions	 Deletions	 Balance
Equipment	\$ 1,434,060	\$ -	\$ -	\$ 1,434,060
Less: Accumulated Depreciation	 (1,260,091)	 (20,044)	 	 (1,280,135)
Total, Net	\$ 173,969	\$ (20,044)	\$ -	\$ 153,925
County Farm				
Land	\$ 153,037	\$ -	\$ -	\$ 153,037

Depreciation expense was charged to programs of the primary government as follows:

Governmental Activities:	
General Government	\$ 111,042
Justice and Public Safety	153,859
Transportation and Highway	2,840,211
Culture and Recreation	1,464
Health and Sanitation	 8,581
Total Depreciation – Governmental Activities	\$ 3,115,157
Business-Type Activities:	
911 Emergency Service Board	\$ 20,044

NOTE 7 LONG-TERM DEBT

On October 29, 2014, the County entered into a capital lease with John Deere Financial for the purchase of a tractor. The tractor was received and put into service in fiscal year 2014. The cost of the tractor was \$244,900, and the accumulated depreciation as of November 30, 2019 is \$82,994. This lease requires annual payments of principal and interest beginning December 15, 2014, carried an interest rate of 3%, and was secured by the tractor. Final payment is due December 29, 2019.

NOTE 7 LONG-TERM DEBT (CONTINUED)

On March 22, 2019, the County entered into a loan agreement for energy efficient interior and exterior building improvements. The lease term is 15 years, with payments beginning September 2019 and maturing September 2033. The loan carries an interest rate of 4.29% and is collateralized by the assets. As of November 30, 2019, the loan had a balance of \$614,939.

Future maturities of long-term debt for the year ended November 30, 2019 are as follows:

<u>Year Ending November 30,</u>	 Principal		Interest		Total
2020	\$ 63,524	\$	27,643	\$	91,167
2021	24,637		25,437		50,074
2022	27,422		24,380		51,802
2023	30,376		23,203		53,579
2024	33,506		21,900		55,406
Thereafter	 476,987		113,467		590,454
Total	\$ 656,452	\$	236,030	\$	892,482

Changes in long-term debt for the year ended November 30, 2019 are as follows:

	В	eginning					Ending		Due in
		Balance	A	dditions	D	eductions	 Balance	C	one Year
Compensated Absences	\$	143,627	\$	238,862	\$	255,357	\$ 127,132	\$	127,132
Capital Lease Payable		81,800		-		40,287	41,513		41,513
Loan Payable		-		647,498		32,559	 614,939		22,011
Total	\$	225,427	\$	886,360	\$	328,203	\$ 783,584	\$	190,656

For governmental activities, compensated absences are liquidated primarily by the General Fund.

Legal Debt Margin

The legal debt margin at November 30, 2019 is calculated as follows:

\$569,850,835
8.625%
49,149,635
614,939
48,534,696

NOTE 8 LEASES

Building Leases

The County leases space to various nonprofit entities under formal and informal arrangements. Rent receipts are recorded in the General Fund.

Entity	Rent Amount	Lease Term		
County Farm Service Agency	\$5,769.27 Monthly	October 1, 2014 to September 30, 2024		
Champaign Consortium WIA	\$413.90 Monthly \$1,054.50 Monthly	September 1, 2016 to August 31, 2019 September 1, 2019 - August 31, 2022		
ECICA Head Start	\$1,507.52 Monthly \$2,016.00 Monthly	September 1, 2016 to August 31, 2019 September 1, 2019 to August 31, 2022		
Volunteer Services of Iroquois Co.	\$502.51 Monthly \$511.47 Monthly	September 1, 2016 to August 31, 2019 September 1, 2019 to August 31, 2022		
911 Emergency Service Board	\$818.61 Monthly \$1,023.75 Monthly	August 1, 2018 to July 31, 2019 August 1, 2019 to July 31, 2020		
Champaign Regional Planning	\$430.83 Monthly	July 1, 2018 to June 30, 2019		

The County signed a new lease, effective September 1, 2019 to August 1, 2022, that combined the Champaign Regional Planning and the Champaign Consortium WIA leases into one lease agreement going forward beginning September 1, 2019.

Farm Lease

The County owns farmland that is leased for cash. On November 1, 2017, a new lease was signed that is effective November 1, 2017 to November 1, 2020. Terms of that lease are \$275 cash rent per acre, for a total rent over the three-year term of \$327,913. The County received rent of \$109,304 for the year ended November 30, 2019. The rent is recorded in the County Farm Proprietary Fund.

NOTE 9 PENSION PLANS

IMRF Plan Description

The County's defined benefit pension plan, a multi-employer agent plan, for regular employees, elected county officials, and sheriff's law enforcement personnel provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The County's plan is managed by the Illinois Municipal Retirement Fund (IMRF), an administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

NOTE 9 PENSION PLANS (CONTINUED)

Benefits Provided

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired **before** January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired **on or after** January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2018, the following *regular employees* were covered by the benefit terms:

Retirees and Beneficiaries Currently Receiving Benefits	131
Inactive Plan Members Entitled to but not Yet	
Receiving Benefits	82
Active Plan Members	89
Total	302

NOTE 9 PENSION PLANS (CONTINUED)

Employees Covered by Benefit Terms (Continued)

As of December 31, 2018, the following *elected officials* were covered by the benefit terms:

Retirees and Beneficiaries Currently Receiving Benefits	12
Inactive Plan Members Entitled to but not Yet	
Receiving Benefits	-
Active Plan Members	-
Total	12

As of December 31, 2018, the following *sheriff's law enforcement personnel* were covered by the benefit terms:

Retirees and Beneficiaries Currently Receiving Benefits	20
Inactive Plan Members Entitled to but not Yet	
Receiving Benefits	5
Active Plan Members	13
Total	38

Contributions

Statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The County also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

- 1. As set by statute, the County's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The County's annual contribution rate for calendar year 2018 was 9.56%. In 2019, the rate changed to 5.11%.
- 2. For the ECO Plan, there is currently no Member or County required contributions.
- 3. As set by statute, the County's SLEP Plan Members are required to contribute 7.5% of their annual covered salary. The County's annual contribution rate for calendar year 2018 was 14.47%. In 2019, the rate changed to 10.15%.

For the fiscal year ended November 30, 2019, the County contributed \$319,429 to the plans.

NOTE 9 PENSION PLANS (CONTINUED)

Net Pension Liability

The County's net pension liability was measured as of December 31, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31, 2018:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.50%.
- Salary Increases were expected to be 3.39% to 14.25%, including inflation.
- The **Investment Rate of Return** was assumed to be 7.25%.
- Projected Retirement Age was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2017 valuation according to an experience study from years 2014 to 2016.
- The IMRF-specific rates for Mortality (for nondisabled retirees) were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.
- For **Disabled Retirees**, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015. The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for nondisabled lives.
- For **Active Members**, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
- The **long-term expected rate of return** on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

NOTE 9 PENSION PLANS (CONTINUED)

Actuarial Assumptions (Continued)

	Long-Term
Portfolio	Expected
Target	Real Rate
Percentage	of Return
37 %	7.15%
18	7.25%
28	3.75%
9	6.25%
7	3.20-8.50%
1	2.50%
100 %	
	Target <u>Percentage</u> 37 % 18 28 9 7 7 1

Single Discount Rate

A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 3.71%, and the resulting Single Discount Rate is 7.25%.

NOTE 9 PENSION PLANS (CONTINUED)

Changes in the Net Pension Liability (Asset)

	Total Pension Liability (A)	Plan Fiduciary Net Position (B)	Net Pension Liability (Asset) (A) – (B)

Balances – December 31, 2018	\$ 42,707,396	\$ 40,932,852	\$ 1,774,544

The changes in net pension liability (asset) above are the aggregated information of the Regular Plan, the Elected County Officials Plan, and the Sheriff's Law Enforcement Personnel Plan. Disaggregated information for balances at December 31, 2018 was not available.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the plan's net pension liability (asset), calculated using a single discount rate of 7.25%, as well as what the Plan's net pension liability (asset) would be if it were calculated using a single discount rate that is 1% lower or 1% higher:

		Current	
	1% Lower	Discount	1% Higher
	(6.25%)	(7.25%)	(8.25%)
Net Pension Liability (Asset)	\$ 5,217,377	\$ 1,774,544 *	\$ (1,052,942)

*The analysis is the aggregated information of the Regular Plan, the Elected County Officials Plan, and the Sheriff's Law Enforcement Personnel Plan. Disaggregated information was not available.

NOTE 9 PENSION PLANS (CONTINUED)

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

For the year ended November 30, 2019, the County recognized pension expense of \$720,090. At November 30, 2019, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred Amounts Related to Pensions	0	Deferred outflows of Resources	- Ir	Deferred nflows of esources
Deferred Amounts to be Recognized in Pension Expense in Future Periods:				
Differences Between Expected and Actual Experiences	\$	344,638	\$	126,688
Changes of Assumptions		767,710		415,970
Net Difference Between Projected and Actual Earnings on Pension Plan Investments		1,984,940		-
Total Deferred Amounts to be Recognized in Pension Expense in Future Periods		3,097,288		542,658
Pension Contributions Made Subsequent to the Measurement Date		315,599		<u> </u>
Total Deferred Amounts Related to Pensions		3,412,887	\$	542,658

\$315,599 reported as deferred outflows of resources related to pensions resulting from the County's contributions subsequent to the measurement date will be recognized as a reduction in the net pension liability in the year ended November 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

	Net Deferred Outflows of
<u>Year Ending November 30.</u>	Resources
2020	\$ 619,084
2021	439,442
2022	437,737
2023	1,058,367
Total	\$ 2,554,630

NOTE 10 DEFERRED COMPENSATION PLAN

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all County employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

NOTE 11 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Expenditures over Budget

The following individual funds had an excess of actual expenditures over legally enacted budgeted amounts for the year ended November 30, 2019: General Fund, Capital Improvement Fund, Public Safety Fund, Drug Abuse Fund, Coroner Automation Fund, Circuit Clerk Fund, County Clerk Automation Fund, County Recorder Automation Fund, Trust Fund, Iroquois County Revolving Fund, Sale in Error Fund, Tax Redemption Fund, County Motor Fuel Tax Fund, Joint Dispatch Fund, County Highway Fund, Iroquois County Public Health Dept Fund, and Historical Documents Fund.

Deficit Fund Balance

The following individual funds had deficit fund balances as of November 30, 2019:

Historical Documents	\$ (13,488)
Joint Dispatch	(179,031)
Grant Fund	(1,038)
Capital Projects	(239,068)
GIS Fund	(25,872)

NOTE 12 RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. The insurance funds account for and finance the County's risks. Premiums are paid by the insurance funds. The County purchases commercial insurance for these risks.

Health insurance is also purchased commercially (not self-insured). It is accounted for as an internal service fund and costs are charged out to various funds/departments.

There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

NOTE 13 CONTINGENT LIABILITIES

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

NOTE 14 HEALTH CARE REVENUE BONDS

The County issued \$7,000,000 of health care facilities revenue bonds dated July 1, 2003, under the Industrial Building Revenue Bond Act of the state of Illinois. The bonds were issued in order to provide funds to loan to Iroquois Memorial Hospital and Resident Home (Institution) for financing a building project. The bonds and interest thereon are limited obligations of the County and are payable solely out of the loan proceeds, revenues and receipts received by the County from the Institution. These are not shown as liabilities on the County financial statements. The bonds were redeemed on July 1, 2019 and no bonds were outstanding as of November 30, 2019.

NOTE 15 TAX ABATEMENTS

Tax abatements, as defined by Governmental Accounting Standards Board (GASB) Statement No 77, *Tax Abatement Disclosures* (GASB 77), are agreements between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. This Statement requires disclosure of tax abatement information about (1) a reporting government's own tax abatement agreements and (2) those that are entered into by other governments and that reduce the reporting government's tax revenues.

The County has entered into a tax abatement agreement with an entity to reduce the value of the property, resulting in a reduction in the amount of property tax revenue collected in the amount of \$1,720 for the fiscal year ending November 30, 2019.

Illinois's Tax Increment Financing Act enables cities to finance certain redevelopment costs with the revenue generated from (i) payments in lieu of real estate taxes, as measured by the net increase in assessed valuation resulting from redevelopment and (ii) a portion of the increase in other local tax revenue associated with new economic activity. When a tax increment financing (TIF) plan is adopted, real estate taxes in the redevelopment are frozen at their current level. By applying the real estate tax rate of all taxing districts having taxing power within the redevelopment area to the increased assessed valuation resulting from redevelopment, a tax "increment" is produced. The County's estimated net reduced tax revenue resulting from the TIFs adopted in these cities within the County are \$90,195 for fiscal year 2019.

NOTE 16 SUBSEQUENT EVENTS

Subsequent to November 30, 2019, the County entered into certain contracts for approximately \$3.3 million.

Subsequent to year end, the World Health Organization declared the spread of Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses, and communities. Specific to Iroquois County, COVID-19 may impact various parts of its 2020 operations and financial results including, but not limited to, costs for emergency preparedness and shortages of personnel. Management believes the County is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as these events occurred subsequent to year end and are still developing.
